

## BE A VOICE FOR LIFE

*"This is Joe, my five-year-old son — the picture of health, right? And what a happy kid! However, seven weeks before Joe's birth, the doctor gave us some bad news. 'The fetus has spina bifida. Terminating the pregnancy is certainly an option.' But for my wife Missy and me, it was not. When Joe was born, the 'experts' said that he might never walk — at least, not without the help of braces. Well, Joe not only walks on his own — he plays T-ball! Missy and I feel privileged that God chose us to parent this special little boy."*

Every human being is precious — regardless of the size or abilities of his or her body. But the Lord uses people to help proclaim that truth — people like you.

Will you be a voice for life?
