

BE A VOICE FOR TRUTH

"My name is Nathan. Several years ago, while in my mid-teens, I battled acute myloid leukemia. Stem cells from umbilical cord blood saved my life. I am living proof that there are promising and successful alternatives to embryonic stem cell research. Human beings do not need to be destroyed to achieve medical breakthroughs."

The truth must get out so that tiny embryonic humans aren't fatally dissected for highly speculative research projects. But a big part of that involves His people — people like you.

Will you be a voice for truth?
